

## J.S.Bach

He belonged to one of the most distinguished families in the history of music.

He was born in 1685 at Eisenach in Germany. His parents died in his early childhood years. He lived with one of his brothers - an organist. We know that Bach never left Germany although many musicians travelled a lot. On the contrary, Händel that lived and composed during the same music era travelled a lot. He moved from town to town, taking jobs as the church organist, sometimes as the director of music at the court of the „rich nobleman. He suffered from health issues – ill eyesight.

Speaking of Bach´s music you can hear about „a lot of counterpoints “. This means that two, sometimes more tunes cross at the same time.

His works:

- Prelude and Fugue in C Minor, From the Well-Tempered Clavier
- Brandenburg Concerts
- „Goldberg´s variations
